Sanitoriums Too Costly in TB Care

LITTLE ROCK (AP) — The results after three months of a state Health Department experiment authorized by the 1967 General Assembly indicates that the state could save some \$2 million a year by treating tuberculosis patients at general hospitals instead of state sanitoriums, a Health Department official said Wednesday.

Dr. W. Paul Reagan, director of the Health Department's Tuberculosis Control Division, said 32 patients had been discharged from Pine Bluff's Jefferson Hospital at a net cost to the state of \$24.19 a day each. Projecting this on the basis of 1966 statistics, it would cost about \$1 million a year to treat all the TB patients in the state, he said.

The General Assembly appropriated \$2,814,000 to operate the state Tuberculosis Sanatorium at Booneville during fiscal 1967-68, plus another \$290,000 for construction at the institution.

Reagan said the cost of treating patients at general hospitals was much lower than his office had estimated last year because treatments proved to be short, intensive and subject to coverage by private and public hospital insurance.

Reagan addressed a joint meeting of the Arkansas Tuberculosis Association, the Arkansas Thoracic Society and the Arkansas Conference of Tuberculosis Workers.

Slayer Is Acquitted on Insanity

NEW YORK (AP) — A jury has found Stephen Kessler not guilty by reason of insanity in the LSD slaying of his mother-in-law — believed one of the first homicide cases to involve the hallucinogenic drug.

Three times the State Supreme Court jury of 11 men and a woman had reported itself hopelessly deadlocked and each time the court directed the panel to try again. The verdict came at 6:20 p.m. Wednesday.

Justice Edward Thompson ordered the 32-year-old former medical student, who has admitted taking marijuana and LSD, placed in the custody of the State Mental Hygiene Authority.

With the announcement of acquittal after 12 hours of deliberation, the Harvard-educated Kessler burst into tears. Throwing his glasses on the defense table, he buried his face in his hands and sobbed: "I still say I don't know what happened. I had no reason to kill her. I loved her."

The lone spectator in the courtroom when the verdict arrived was his mother, Mrs. Henrietta Kessler, a tall gray-haired woman who was a faithful attendant during her son's four-week trial. She also wept.

Kessler could gain his freedom by proving that his insanity was temporary and that he is now of sound mind.

The lanky, stoop-shouldered Kessler went on trial Sept. 26 charged with the first-degree murder April 11, 1966, of Florence Cooper, 57, his mother-in-law. She was stabbed 105 times in her Brooklyn apartment.

At no time during the trial did defense attorney Maurice Edelbaum dispute the murder charge. The issue was Kessler's sanity and the jury was required to consider LSD as a factor in his mental condition.

The defense contended Kessler was legally insane at the time of the slaying, describing him as a man "verging on genius who lapsed into psychotic episodes" complicated by his admitted use of LSD.

The prosecution contended that Kessler determined to remove Mrs. Cooper when she stood in the way of a reconciliation between himself and his estranged wife, Mari-Ann.

The state held Kessler took the LSD to provide the amnesia defense in the event he was accused of the killing.

Reds 'Only Bragging' About Riots

By CARL P. LEUBSDORF
Associated Press Writer
WASHINGTON (AP) — Dist. Atty. Evelle J. Younger of Los Angeles says Communist or extremist groups that take credit for recent city riots "are only bragging."

"All of the recent riots have started accidentally, triggered by some explainable incident," Younger told the House Committee on Un-American Activities Wednesday, adding it would be a mistake to assume Communists instigated the 1965 Watts riots just because they passed out pamphlets there.

"It would be a nice thing if we could blame all the riots on the Communists, or the Black Panthers, and go out and round them up, but it's just not that easy," he testified.

The committee's hearings on the role of subversive groups in planning, instigating or taking advantage of city rioting, looting and burning resume today and are expected to continue two days a week for the next three weeks.

Younger said rumors spreading from incidents, which have usually involved a confrontation between Negro civilians and white police have proved more inflammatory than the actual incidents.

The two key ways to prevent riots, he suggested, are to insist that laws be obeyed and to "free the slaves."

"We have been afraid to let the Negro come all the way up," he said, adding: "Let's spend money on true job skill training and placement and on projects like Headstart and compensatory education programs that help speed the day when the Negro has equal educational opportunities" instead of merely handing money to Negroes.

Both Younger and Clarence Mitchell, Washington director of the National Association for the Advancement of Colored People, criticized newspapers and television stations on grounds of overplaying comments of some extremists and failing to check facts.

NAVY CLEANS (From Page 1)

Vietnam claimed five American planes were shot down over Hanoi. Tass, the Soviet news agency, said in a dispatch from Hanoi that the center of the city and its suburbs were bombed and strafed.

U.S. spokesmen said that all the main bridges in Halphong and Hanoi and all but one of North Vietnam's six MIG bases have been put out of commission by the stepped up air strikes.

The latest raid on the bridge leading northeast to Red China dropped two spans of the mile-long, 19-span structure late Wednesday, the spokesmen said.

One span of the Doumer bridge was reported downed on Aug. 11, but recent aerial photos showed the two-lane concrete rail and highway bridge had been repaired. The only other major Hanoi bridge, over the Canal des Rapides, was still being repaired at last report.

All four principal bridges in the port city of Halphong have been dropped or damaged by recent raids, including new strikes this week on the northwest highway bridge three-quarters of a mile from the center of the city.

The objective of the bridge campaign against Halphong is to isolate North Vietnam's biggest port and clog its warehouses and wharves with war supplies brought in by sea.

Although the pace of ground fighting in South Vietnam appeared to have slackened, U.S. troops in the country's five northernmost provinces reported killing 77 enemy soldiers in a series of clashes.

Troops of the Americal Division killed 46, spokesmen said, while units of the 1st Air Cavalry Division reported 31.

Free Ferry Is Continued
LITTLE ROCK (AP) — The state Highway Commission renewed its contract Wednesday for free ferry service at the Pendleton crossing of the Arkansas River on Arkansas 1 between Arkansas and Desha counties.

The commission said the contract would continue in effect for three years in the event that the Pendleton Bridge is not completed and open to traffic by then.

SS Offers Disability Benefits

Otis A. Blackwood of the Texarkana Social Security Office says that thousands of working Americans suffer serious illness or injury each year. Many of these workers recover within a short time and return to their jobs. Others cannot return to work for as long as a year and some are never able to work again. What happens to the families of workers whose earnings stop?

Social security disability in-

surance is the answer for employees and self-employed people who have paid social security for at least 5 years out of the 10 years before their disability began. Individuals who became blind before age 31 may be insured with less than 5 years of work.

In addition, benefits are payable only if a worker has a disability that prevents him from doing any substantial gainful work. This disability must have lasted or is expected to last for at least 12 months.

The amount of your monthly benefit depends on your average yearly earnings. For example, if your average earnings under social security are \$4,200 a year, your disability benefit will amount to \$124.20 each month. Monthly benefits also go to dependents. A wage earner, his wife and two children, with the above average earnings would be entitled to a total of \$280.80 each month.

It is important to remember that social security benefits are not paid automatically. Application should be made as soon as it seems likely the disability will prevent work for a year or longer. The local social security office is located at 121 College Drive, Texarkana, Texas. They will be glad to assist you.

Boston, Mass., was the first American city to have a subway.

FANTASTIC (From Page 1)
reply.
The center is operated by Litton Systems, Inc., on a deactivated military base about 40 miles southeast of San Francisco. It has a capacity of 2,200 men.

The GAO review covers the period from the opening of the center in early 1965 through last December. Since then, it notes, there have been some improvements in procedures and other changes are under consideration by the contractor.

Much of the report is devoted to the costs of the program, de-

signed to provide youths between 16 and 21, most of them school dropouts from impoverished backgrounds, with job training and basic education.

The contract was originally negotiated at an estimated cost of \$12.8 million and a fixed fee for Litton of \$600,000, says the GAO. But by November 1966, the total cost was up to \$25.6 million including a fixed fee of \$683,079.

The report fixed salaries of center employees as a major cost item, accounting for \$9.4 million when total costs were \$20.3 million. It said the center had a staff of 1,078 for 1,869 enrollees at the end of 1965.

The countess presented the wheelchair to America as a gift and token of good will from Technical Aids for the Handicapped, a nonprofit Swedish foundation that develops new technical aids for handicapped people.

CHAPTER A.E., P.E.O. MEETS

The state corresponding secretary of the P.E.O. Sisterhood, Mrs. W. L. Coleman of Arkansas, was a special guest of Chapter AE on Tuesday, Oct. 24. She had been a delegate to the recent Supreme Convention in Seattle and made a detailed report on the events which took place there.

The local meeting was held in the home of Mrs. Jewel Moore, Jr., with Mrs. Crit Stuart, Jr., co-hostess. The panoramic view from the den of the home provided a beautiful setting, and in addition, arrangements of zinnias and mixed flowers were used indoors.

In addition to 16 members and Mrs. Coleman, another guest was

Mrs. David Moore of Hope, daughter of the guest speaker. Using a Halloween theme, the hostesses served a salad plate and coffee for refreshments.

Births

Mr. and Mrs. Ronnie Love of Truman are the parents of their second child, a boy. Mrs. Love will be remembered as the former Joan Allison whose parents, Mr. and Mrs. Woodrow Allison, now live in Fordyce but are formerly of Hope. Mr. and Mrs. Monroe Kent of Patmos are the great grandparents.

Coming, Going

Mr. and Mrs. Reese Chambliss and Mr. and Mrs. Richard Hogue and Wayne Johnson have been in Colorado for the past week on a deer hunt. News comes that they do have a deer.

Mrs. Pauline Walker from Galveston, Texas has been visiting her brother's family, the Jack Beatzys and her aunt, Mrs. Weston.

Mrs. Jim Hoffman will leave by plane Friday night for San Francisco after spending the past two weeks with her aunt, Mrs. Dorothy Rochell and father, Mr. Ervin Dodson and other relatives.

The Rev. and Mrs. Bill Lawrence, Austin, Tex., and Beth Lawrence, Denton, Tex., attended the Arkansas-Texas football game last weekend and en route home they visited Dr. and Mrs. L. T. Lawrence.

Mrs. Dewey Camp returned home Wednesday after visiting Miss Kay Camp in Crossett and Dr. and Mrs. Bob Truax and family in Oxford, Miss. While in Oxford, Mrs. Camp attended the Ole Miss homecoming game.

Mrs. Orville Oglesby went to Havana, Ark., two days last week to see Mr. and Mrs. Don Oglesby and Billy Don.

Mr. and Mrs. J. A. Davis have returned from a visit in Fayetteville with Mr. and Mrs. Cline Franks and other relatives.

Sanford Bonds of Blevins is a patient in a Texarkana hospital, and Mrs. Theo Bonds of Hope visited him on Sunday.

Mrs. Jimmy Gilbert flew to Wurzberg, Germany, last Saturday to join her husband, who has been stationed there since July. Pfc. Gilbert works in the army dispensary, and he is the son of Mr. and Mrs. Buster Gilbert who live on the Columbus Road. Mrs. Gilbert, nee Joyce Allison, is the daughter of Mr. and Mrs. Woodrow Allison of Fordyce, formerly of Hope.

Mrs. W. M. Blackhard, Ft. Smith, is visiting Mr. and Mrs. A. L. Park this week.

Mr. and Mrs. B. L. Rettig have returned from a weekend visit in Houston with relatives and friends.

Over the weekend Mr. and Mrs. Carl McMurtrey and Debbie, Boutte, La., visited Mr. and Mrs. Verner McMurtrey and Mr. and Mrs. A. R. Hamm.

Mrs. Betty Minshew, Malvern, spent the weekend with Mr. and Mrs. James Robertson and family.

This column is for young people, their problems and pleasures, their troubles and fun. As with the rest of Helen Help Us!, it welcomes laughs but won't dodge a serious question with a brush off.

Send your teenage questions to YOUTH ASKED FOR IT, care of Helen Help Us! this newspaper.

HE'S THROWING HER A CURVE

Dear Helen: I've been going with a guy since February. But he went away in March to play professional baseball. When he came home he wasn't at all like his letters. He had a big new convertible and a fabulous wardrobe, and I was just the girl he dated between fast girls. He'd come to my house and talk, more than he'd take me out.

Now he's back in Florida. We write to each other, but I know

he's chasing around while I'm sitting home being true and dumb! I just heard from his mother that she thought he was with me every evening while he was home. I think I was being used for a cover, to keep her from knowing he was out with the honky-tonk girls.

Should I write and call it quits? STRIKE OUT

Dear S.O.: Don't blow the ball game! Put this "play-the-fielder" in your minor league, and let him know he's just one of the reserves. In other words, keep him on the string and hope for improvement, but meanwhile, keep scouting for better prospects.

Dear Helen: We dug each other on sight, and we've been having a groove and a half ever since we met two weeks ago. He's the most wonderful guy in the world, but he

has this one phobia.

He said if a couple wants to stay together forever, they have to belong to each other, without making love, he says, it's incomplete and we'll break up inside of six months if I haven't changed my mind. He isn't threatening me and he's very logical. He says he went with a girl for three years, and when they finally decided to go all the way, he found out what he was missing. They were fulfilled!

Dear Teen: One question: If sex and, believe me, after a mere two weeks, it's sex, not "making love", if sex makes couples stay together forever, then how come your boyfriend and his girl parted shortly after she gave in?

In these columns I've given teens every possible reason for staying virgin. So now I'll only say, Look, little stupid, can't you recognize the line your mother laughed at 25 years ago? The trouble with modern girls is they're ten times as glib as we elders used to be, and the guys are sure as heck making points with that creaky old psychology

routine, H.

Dear Helen: "A Guy" says he doesn't like promiscuous girls and he would never marry one. That is "easy". So why does he try so hard to "find out" what she is?

If he wants to marry a good girl, let him play fair and be good himself. Honest, we won't think he's "unmanly" if he acts like a gentleman. A.R.A.

Dear Helen: How about the hoaxes? Any more lately?

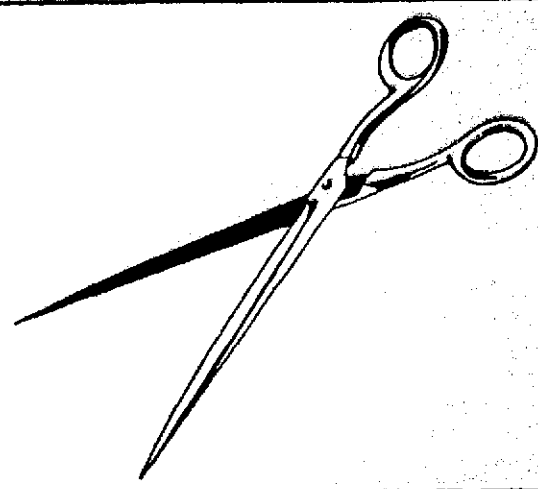

Dear Eager: How about this?

Dear Helen: I ran away to be a love-in hippie, but I'm allergic. What does a flower child do when she gets hay fever?

Dear W.F.: Go home before she gets pollenated! H.

This column is dedicated to family living, so if you're having kid trouble, or just plain trouble, let Helen help YOU.

WIN AT BRIDGE

Chances Taken Enhance Score

By Oswald & James Jacoby Newspaper Enterprise Assn.

As in any competitive game, the best bridge players take chances in order to force their opponents to guess.

In a recent team match, both West players opened with one spade and each East jumped right to game.

At the first table South, deciding that he was not going to be shut out, bid five hearts. West's first thought was to bid five spades and take a small loss. His next thought was to pass and leave things to his partner. Finally, West took a third course of action and doubled.

Then he led his singleton diamond. South won and led a low heart toward dummy, but West had planned his campaign to get a ruff. He went right up with his ace and played a low spade. East got in with the queen and returned a diamond to set the contract.

East and West weren't too happy with their result. They were afraid that other Easts and Wests would make four, maybe five spades, but their fears turned out to be groundless.

At the other table, North and South were playing all-purpose doubles. South doubled East's four spade bid

primarily for takeout, but North decided to try to beat that contract.

He opened his singleton club. South took his ace and West falsecarded with the seven spot. This left South with some doubt as to the location of the deuce, but he had no reason to shift and returned the three.

West played his eight and North ruffed. This left North with a real problem. He wanted to put South in. Should he lead a diamond or a heart? If West had played the club deuce, North would have known that his partner had played his lowest club as a diamond preference signal, but where was that deuce? Eventually, North did decide on the diamond play and got his second ruff.

Q—The bidding has been West—North—East—South

2 ♠ 2 ♠ 1 ♠ 1 ♠

You, South, hold
AK 2 ♠ A Q 10 8 4 3 ♠ K 10 2 ♠ 6

What do you do now?

A—This is a tough one. We favor three spades but would have no criticism of a three heart call and little criticism of three diamonds. We would not pass.

TODAY'S QUESTION

You bid three spades. West bids four clubs and your partner doubles. What do you do now?

Answer Tomorrow

Oysters
Oysters receive food and oxygen by pumping water through their gills at an average rate of 15 quarts per hour during the warm season. Some of the larger species are reported to pump as much as 37 quarts an hour, according to the Encyclopedia Britanica.

DOCTOR'S MAILBAG

Q—I have a skin problem. Of what value is the facial sauna for skin disorders?

A—None. This is an expensive way of adding heat and moisture to your skin—an effect more easily attained by the application of a hot towel. Furthermore, these effects are quickly dissipated following the treatment. Any sauna device that claims specific benefits for acne, aging skin or other skin troubles is liable to seizure by the Food and Drug Administration.

Q—What is Stelazine used for? Does it have any bad side effects?

A—This tranquilizer is used for the treatment of persons with extreme nervous tension. It should not be taken by anyone who has a liver disease and those who take it should have a periodic blood count. Side effects are rare if the dosage is regulated to your needs. Some persons taking this drug complain of drowsiness, dry mouth, dizziness and insomnia.

Q—For the past year I have been taking Trilafon, Stelazine and Valium. Is there any danger in taking these drugs for so long?

A—These three drugs are all tranquilizers. In the treatment of some severe nervous disorders the use of all three at once, under careful medical supervision, is justifiable. In addition to periodic blood counts, the ocular tension should be checked for early signs of glaucoma in anyone taking Valium.

Q—I am taking Kemadrin, Stelazine and Norpramin. What are they for? Would any of them cause me to gain weight?

A—Kemadrin is an antispasmodic used chiefly in the treatment of Parkinson's palsy and desipramine (Norpramin) is an antidepressant similar to imipramine. Stelazine and Norpramin in large doses may cause a loss of appetite but in moderate doses they might, by relaxing you, allow your appetite to improve.

Celtics Cut St. Louis' Win Streak

By THE ASSOCIATED PRESS
The Boston Celtics, whose long reign as champions of the National Basketball Association was terminated by Philadelphia last season, have served notice that they will be right back in the thick of things this season.

The Celtics ended St. Louis' seven-game winning streak Wednesday night, beating the Hawks 118-104. Player-coach Bill Russell, with 25 rebounds and sterling defensive play, was the big factor in Boston's third straight victory without a defeat.

The 76ers, on the other hand, aren't giving up easily. They won their fourth game without a loss, defeating New York 117-114. In other NBA games, Detroit downed Chicago 107-99, Los Angeles turned back Cincinnati 132-116 and Baltimore whipped San Diego 125-109.

In the American Basketball Association, New Jersey topped Minnesota 118-100.

Hal Greer dropped in 33 points for the 76ers, his third 30-plus night in three straight games. The Knicks led by 11 points early in the third quarter, but Philadelphia broke the game open after that.

Dave Bing scored four quick baskets late in the fourth quarter, bringing the Pistons back from a 10-point deficit. He led the scorers with 31 points and Bob Boozer had 26 for the still winless Bulls.

Los Angeles overcame a 54-53 halftime deficit against Cincinnati with a 37-point third period. Elgin Baylor of the Lakers and Oscar Robertson of the Royals shared scoring honors with 33 points each.

Baltimore hit on 50 per cent of its field goal attempts in building a 61-52 halftime edge over San Diego. Ray Scott and rookie Earl Monroe triggered the Bulls with 27 points apiece. John Block was high for the Rockets with 23.

John Austin came off the bench in the second period and helped the Americans to their first ABA victory. He scored 27 points. Bob Lloyd added 20 points while Ron Perry led the Muskies with 21 points.

Laurel Race Is Set for Nov. 11

LAUREL, Md. (AP) — John D. Schapiro, the president of Laurel, had five acceptances today for the 16th running of his \$150,000 Washington D.C. International Horse Race Nov. 11.

The fewest number of starters in the 1 1/2-mile grass race has been seven. Schapiro has invitations to two others and probably will issue more.

The latest addition to the probable field is Rokeby Stable's Fort Marcy who will represent the United States along with Mrs. Edith W. Bancroft's formidable Damascene.

England also has a pair of entries in Charles Engelhard's Ribocco and Mrs. O. H. Hammond's In Command. Japan's Speed Symbol already is on the scene.

Bobcats May Break Loss Jinx Friday

By RALPH ROUNTON
Star Sports Writer

The Hope Bobcats should break away from their five-game losing streak Friday night, as the Cats travel to Camden to battle the Panthers in Coleman Stadium.

After suffering several crucial injuries in the past weeks the Cats should be in fairly good health for the yearly battle with Camden. Tackle Carroll Beck, 6-4 and 210, turned in a good performance last week, playing for the first time since the Arkadelphia game.

Camden has a new head coach this year, George Burke. Burke coached last at Norphlet, where he had a 10-0 record with the No. 1 team in Class B last year. He has undergone a rebuilding program in his first year at CHS, and his respected ability as a coach should bring success to Camden eventually. But not this year.

Turning in fine efforts against top teams, the Panthers have managed one win, a 14-7 conquest over Arkadelphia, another team having an off year. Camden should be mentally prepared for this one, especially remembering their 20-7 loss to the Bobcats last year.

Tuesday night the Hope "B" Teamers hosted the Arkadelphia "B" team, and the locals defeated the Badgers 25-6, with backs Kenny Koen and Jerry McWilliams scoring a pair of TD's each. It was the Hope "B" Teamers second consecutive win, since they beat Stamps 7-0 last week at Stamps.

The Hope Bobkittens try to stop a losing string this evening, as the Kittens travel to Camden to play Fairview Junior High at 7:30 p.m. Coach Gaylord Solomon's charges have played inspired football in spite of bad breaks and injuries to key players, and tonight the Bobkittens should be out in full force to try for their third victory of the year.

The Kings, one of National Hockey League's expansion teams, lost their first game of the season Wednesday night, 4-2 to Toronto.

"They're playing basic hockey—the stuff you teach kids," said Toronto defenseman Marcel Pronovost. "But they're playing it well."

Ratelle drew three Chicago defenders away from the net, setting up Vic Hadfield's tying goal as New York battled the Black Hawks to a 2-2 deadlock.

"I just shot the puck," said Ratelle, explaining what had seemed to be an impossible pass. "You can't score if you don't shoot," he continued, "that's basic."

In other NHL games Wednesday night, Minnesota nipped St. Louis 3-2 and Pittsburgh stopped California 4-1.

The Maple Leafs opened a 2-0 lead against ex-teammate Red Kelly's Kings. But Los Angeles came back to tie it before Bob Pulford's second period goal put the Leafs on top to stay.

Bobby Hull's seventh goal of the season—a 50-foot sizzler—had just given Chicago a 2-1 lead against the Rangers but Ratelle's picture play got New York even 46 seconds later.

Ab McDonald scored twice as Pittsburgh bested California. It was a costly victory for the Penguins, who lost Earl Ingarfield with a cracked right kneecap and possible torn cartilage.

Ingarfield is expected to be out of action from six to eight weeks.

Ray Cullen cruised in all alone for Minnesota's winning goal against St. Louis. Defenseman Bob Woytowich had stolen the puck and fed Cullen, who went in by himself against Glenn Hall with just over two minutes left to play.

Cullen took Woytowich's pass about 30 feet from Hall, faked the Blues' goalie to the left and hit the right corner of the net from up close.

Accurate Kickers Needed

By JACK HAND
Associated Press Sports Writer
NEW YORK (AP) — If you have a son, tell him to go out in the back yard and start practicing field goals. The pro football business is in trouble with a shortage of accurate place kickers.

For some strange reason both the National Football League and the American Football League teams are having problems with field goal kickers.

The NFL kickers have made good on only 94 of 199 attempts, or 47 per cent as compared to 55 per cent last season. The AFL kickers have made 51 of 114 or 45 per cent against 52 per cent for the 1966 season.

In the NFL the only kickers over the .500 mark are Jim Bakken of St. Louis (17 of 23), Tommy Davis of San Francisco (7 of 13), Sam Baker of Philadelphia (7 of 10), Don Chandler of Green Bay (7 of 12) and Mike Clark of Pittsburgh (5 of 8).

The AFL booters who have made more than they have missed are the venerable George Blanda of Oakland (7 of 13), Jim Turner of the New York Jets (9 of 16) and rookie Jan Stenerud of Kansas City (7 of 13).

Denver has tried everybody but Val Pinchbeck, the publicity director, and has succeeded with only five of 15 Miami has only one of six. As a result Gene Mingo was released Wednesday.

The injury to Charlie Gogolak, who pulled a muscle, has left the Washington Redskins in such trouble that they have made only three of 14 attempts. The old pro, Lou Groza of Cleveland has only three of 10 but two came in one winning game.

Palmer Has a Very Bad 2nd Round

By BOB MYERS
Associated Press Sports Writer
LAS VEGAS, NEV. (AP) — The burning issue was not whether Arnold Palmer would win the \$100,000 Sahara Invitational Golf Tournament but whether Arnie and his Nevada Army would fade out of the scene entirely with 36 holes yet to be played after today.

Las Vegas is renowned for its gambling and one of its prominent apostles, Jimmy "The Greek" Snyder, went so far as to bet intimate friends that Palmer was no better than 300-1 to win the thing and 2-1 to qualify for the two rounds remaining after today's second round.

Massive George Bayer, with an opening round 66, five shots under par for the Paradise Valley Country Club's 36-35—71, led the way into the second round.

Six players were just one stroke off big George's neck, but if Bayer's position was perilous, consider the famous Mr. Palmer's problem.

He was not only 10 strokes back of Bayer with a 76 Wednesday, but there were almost as many people as Arnie's Army crowded in between the leaders and Mr. P.

Palmer, however, is a man of considerable magic. A year ago he had a first-round 71 and scooted to an 80 the next afternoon.

Yet he charged back with a 67 and his 287 gave him a tie for second place.

Jack Nicklaus, with 71-77-68-66—282 won the 1966 tourney and Jack is in better shape with his initial 68 this time around.

Bayer shot seven birdies and two bogeys for 71-72—66 and did it with a swollen left little finger, recently injured in an accident, and no tournament action since the Greenbriar Open last April. He led off with seven straight birdies, followed by five successive threes.

Hall and Ft. Smith to Meet

By HARRY KING
Associated Press Writer
The question of who is the best high school team in Arkansas will be settled Friday night at Little Rock when the Hall Warriors host Fort Smith Northside's Grizzlies.

Hall is ranked No. 1 in this week's Associated Press Arkansas High School Football Poll and Northside is No. 2. Both are undefeated and both are 3-0 in the AAA Central Division.

Both teams have powerful defensive units. Northside has given up 48 points in eight games and third-ranked Texarkana scored 14 of those last week. Hall has given up 20 points in seven games and has averaged scoring more than 40 points per game.

Hall's offense is built around the passing of Walter Nelson and the running of Steve Hockersmith. Northside has a group of strong running backs including Billy Joe Releford and Benny Shepherd. Quarterback Dwight Moore can pass when it is necessary.

Northside has played a rougher schedule and that could be the difference.

Northside 20, Hall 14. Springdale, ranked fifth in the state, plays at Fort Smith Southside in a Western Division conference game. Southside was upset by Fayetteville in its only conference game. Springdale has won its only conference start.

Springdale 14, Southside 7. Sheridan, the No. 9 team in the state and the No. 2 team in the Class AA rankings, puts its 22-game winning streak on the line at Malvern. Malvern has lost only to Little Rock Catholic.

Malvern 13, Sheridan 7. Last week's percentage was: .756.

San Diego Tops Small School List

By THE ASSOCIATED PRESS
San Diego State held its slimmest margin of the season over Waynesburg in the battle for the No. 1 spot in The Associated Press' small-college football poll today. The two have recorded 39 consecutive victories between them.

Each team collected five votes for first-place in the latest balloting by a national panel of 15 sports writers and broadcasters.

However, San Diego State accumulated 131 points to Waynesburg's 121 on a basis of 10 points for a first-place vote, 9 for second etc. The Aztecs led by 20 points last week.

The high-scoring leaders both increased their season records to 6-0 last Saturday, the Aztecs by walloping Northern Illinois 47-6 and the Yellow Jackets by trouncing Geneva 69-7. San Diego State has a 22-game winning streak while Waynesburg has won 19 in a row.

North Dakota State held third place with 96 points after downing North Dakota 34-10 for its seventh victory against no defeats.

The Top Ten, with first-place votes in parentheses and total points on a 10-9-8-etc. basis:

1. San Diego State (5) 131
2. Waynesburg (5) 121
3. North Dakota (1) 96
4. U. Texas at Arlington 73
5. Northwestern 12 (1) 54
6. Eastern Kentucky 37
7. Wittenberg 29
8. Northern Arizona 24
9. Lamar Tech 22
10. Parsons 21

Holland came closest in the 100-meter butterfly with 1:06.7. She holds the record at 1:04.5. The other gold went to Andrey Dunaev of Russia for his 5:00.7 in the 400-meter individual medley.

Other golds of the day went to the Soviet Union in the 4,000-meter team pursuit bike race, to Belgium in tandem cycling, to Romania in rapid fire pistol, to Switzerland for high-power rifle shooting, and to Russia in epee fencing.

But swimming will be the competition which brings the largest harvest of medals—29 golds in all.

Peter Williams of Pittsburgh won a silver in the individual medley.

Claudia Kolb of Santa Clara placed second and Patty Caretto of Whittier, Calif., third in the 800-meters with clockings of 1:02.3 and 1:03.4, respectively. Ten minutes earlier, Claudia won a bronze with her 1:07.6 in the 100-meter butterfly, trailing Eleanor Daniel of Elkins Park, Pa., 1:06.5.

Fourteen courses and some hours later, we hunched up from the table and proceeded to the gun club for an inspection.

By American standards, the trap facility was primitive. Situated behind the rifle and pistol range, it consisted of five concrete pads, for 16 yard

shooting only, and a ramshackle trap house. The trap was an old electric Western

trap, but autoloading. Two scrawny kids hunched down in the house and load it manually.

We were met by a peppy, friendly and efficient trapmaster.

Looking at the trap, I felt I could not feel it was a trap, but rather a very old, but still functional, piece of equipment.

After a brief explanation of the trap, we were taken to the trap house.

Attaway's Outdoor Notebook

BANGKOK, Thailand (NEA)—The only kind of trap you associate with Thailand is a pitfall for a tiger. Or, in the extreme northeast, an ambush by Communist guerrillas.

But sport shooting?

Target shooting, in fact, is rapidly becoming the "in" sport in a city best known for gilded pagodas and a floating market place. The itch to pop a cap seems to have infected most Thais, from the crown prince on down to the middle class fringe.

The Bangkok Post covers shooting matches the way the Havana Daily Pinks covers el beshbol.

Most of the target shooting is devoted to small bore rifle and pistol. To that end, the National Shooting Sports Association has built an ultramodern range on the outskirts of town.

There also is more hunting than you would suspect, notably in the rice fields for rails very similar to the East Coast marsh hens.

But the most recent innovation is trap, as shot in Vandalia, Ohio, every summer.

A major influence, no doubt, has been the U.S. Armed Forces. The 9th Logistical Command at Korat has built a simple but rather elegant trap and skeet club near the base.

Enthusiased by their first taste of clay target shooting, a group of prominent Thais formed the Thailand Claybird Shooting Association.

Recently yours truly and Gary Snavely, managing director of Winchester-Ten-Bang-Kong Ltd. had lunch with this group. Our official host was Snavely's agent in Bangkok, the inscrutable but very personable Book Aek.

Hogs Brush Up Passing Attack

FAYETTEVILLE, Ark. (AP) — The Arkansas Razorbacks continued to polish their passing attack Wednesday in preparation for Saturday night's non-conference game against Kansas State at Little Rock.

Head Coach Frank Broyles praised all three of his quarterbacks for the second straight day, but apparently still has reached no decision on whether he will start sophomore John Eichler, senior Ronny South or junior Gordon Norwood.

The Razorbacks also worked on their kicking game and goal line defense.

Nose guard David Cooper, a senior, missed Wednesday's drills because he had a toenail removed Tuesday, but he was expected to start Saturday. Someone stepped on his toe during the Texas game last week.

The Razorbacks were expected to work out in sweat clothes today.

Keys Is Traded by Steelers

By IRA MILLER
Associated Press Sports Writer
PITTSBURGH (AP) — Brady Keys, who played in the Pro Bowl last year, has been traded by the Pittsburgh Steelers after Coach Bill Austin called him the goat in two straight last-minute defeats.

Keys, a seven-year veteran, went to the Minnesota Vikings Wednesday for a pair of draft choices.

Though Austin didn't say it at the time, Keys' career in Pittsburgh ended Sunday when the Steelers lost to the Cowboys 24-21 in the last half-minute. A week earlier, New York beat Pittsburgh 27-24 on a 59-yard pass in the final two minutes.

"Everybody played well and it's a shame one guy had to mess it up," Austin told newsmen after the Dallas game. "It was the same guy two weeks in a row."

He never identified Keys, a defensive back, but it wasn't necessary.

Said a teammate: "We knew who he meant. We all make mistakes but with this guy it's getting to be a habit."

On Monday, General Manager Dan Rooney told Keys not to bother reporting for practice any more.

"We told him we were going to trade him," Rooney said. "There was no reason for him to report."

Keys, 39, who earned a reputation in the National Football League by constantly chattering to pass receivers, has spent his entire career with the Steelers.

"He knew he wasn't helping the club the way he should," Austin said Wednesday night.

LAS VEGAS, Nev. (AP) — Miller Barber of Texarkana, Ark., earned a 36-34 69 in the first round of the \$100,000 Sahara Invitational Golf Tournament here Wednesday and trailed leader George Bayer by just three strokes.

Bayer had a 34-32 66. Dick Crawford of Bella Vista, Ark., had a 75-35 70, and Bill Sikes of Springfield, Ark., had a 36-34 72.

THE PRINCE PAID A VISIT to a printing factory in Tokyo, and the company brass turned out to welcome him. The royal visitor was Prince Hiro, elder son of Crown Prince Akihito and Princess Michiko, who visited the plant for his social studies in school. Bottom right, the operation of a huge machine is explained to him by the chief engineer, and at left, the mini-prince bows in stiff formality as he takes his leave.

Captain's Death Is Disputed

CORONA, Minn. (AP) — A photograph from North Vietnam has renewed a father's hope that his son is alive in a prison camp, although the Pentagon has listed him as dead for several months.

Robert Schumann, 61, who works for a farm implement dealer, died in a Communist prison camp in South Vietnam.

The soldier's father, John P. Schumann, was shown a copy of the Communist photograph at his home Tuesday and said, "It looks a lot like him."

The elder Schumann whose wife died of a stroke a few weeks ago, found his hopes bolstered that his son was still alive.

"In my own mind, I didn't think he was dead. He isn't the kind who would give up that easily," said Schumann, 61, who works for a farm implement dealer.

Mrs. Howard Lind, Bloomington, Minn., the soldier's youngest sister, said, "I'm just baffled. I don't know what to think of this. I don't know when the picture was taken."

The elder Schumann acknowledged that it would be hard to tell whether the picture might have been taken before his son reportedly died. Mrs. Lind said the family was informed last March by the Defense Department that Schumann had died in

Reds Deny Defector Was Theirs

MOSCOW (AP) — U.S. reports of a Soviet officer defecting were "a hoax," says the Soviet Union.

The official Soviet news agency Tass said a Russian defector identified by the U.S. State Department as Lt. Col. Yevgeny Y. Runge never served in the Soviet army or Soviet security forces.

Sunday's Tass statement made no mention of West German reports that Runge's defection resulted in the smashing of two Communist spy rings.

July 1966 of pneumonia and a kidney disease.

She said another prisoner-of-war who was released because of the lunar new year truce made the report. According to the government statement, said Mrs. Lind, "John had died in his arms."

Hippie Dream World on Suwannee Island Dissolved by Jail

SUWANNEE, Fla. (AP) — The hippies who moved onto Hog Island in the Suwannee River to become "united in a dream" were separated Wednesday by a sheriff who thought it was "immoral of them to live like that."

Four of the six swingers, who described themselves as "a group of people living closer than brothers and sisters," were jailed by Levy County Sheriff Pat Hartley. The other two escaped.

The four bearded young men and two girls, had been camping on the 40-acre island for about six weeks, living on fish, crabs, oysters and whatever their \$7-a-week budget allowed them to buy.

Hartley said he made the arrests because "they shouldn't be permitted to live like that. They weren't in my hair," Hartley

said, "I was looking at it from a moral standpoint."

Arrested during a trip to the fishing village of Suwannee were: Paul Morgan, 21, of Duncan, Okla.; James Lynard, 20, a native of North Dakota who said he has lived a year in Gainesville, Fla.; Margaret Ann Zimmerman, 21, of West Point, Miss.; and Lynn "Cricket" Jacobs, 18, of Gainesville.

Still at large were: Stanley Rheinheimer, 21, of Asheville, N.C.; and David Breuning, 25, of Melbourne, Fla.

Cricket was charged with vagrancy and the others were charged with contributing to Cricket's delinquency.

On the way to the Levy County jail Lynard said of the bond, "Why should we pay \$200 to a machine we ran away from."

Asked how the hippies would pass their time in jail, Lynard replied, "We'll laugh a lot."

Living Cost Rise Held to Minimum

WASHINGTON (AP)—Living costs rose two-tenths of one per cent in September, the smallest increase in six months, but a government spokesman said today that price hikes are accelerating and "corroborate the need for a tax increase."

Grocery prices dropped nine-tenths of one per cent in September, but higher costs of housing, clothing, transportation and medical care added up to the over-all boost in living costs, the Bureau of Labor Statistics said.

"If food prices had not declined, the consumer price index would have gone up four-tenths of one per cent," said Commissioner Arthur M. Ross.

The September increase brought the price index measuring typical family living costs to 117.1. That means it took \$11.71 to purchase goods and

services that cost \$10 in the 1957-59 period on which the index is based.

The bureau also said average weekly earnings of some 45 million American workers rose to an all-time high of \$103.41 per week in September, but that purchasing power was still below a year earlier.

While wages were up 2.5 per cent since September 1966, living costs were up 2.6 per cent.

Ross said he still expects 1967 price increases will average out between 2.5 per cent and 3 per cent, somewhat lower than last year's sharpest rise in a decade.

WR-Allied Firm Turns in Charter

LITTLE ROCK (AP)—Burch, Inc., a Little Rock-based firm that numbered several members of Gov. Winthrop Rockefeller's administration among its stockholders, filed a certificate of dissolution Tuesday with Secretary of State Kelly Bryant.

The firm was involved in a \$100,000 stock sale promotion halted by the state Securities Department last August. The department said it stopped the sale because an agreement under which Burch was to sell the stock for Continental Securities Corp., of Little Rock wasn't listed in Continental's prospectus.

The certificate of dissolution said Burch's board of directors voted Oct. 9 to surrender its charter. It said all the firm's assets had been distributed under a liquidation plan.

The certificate was signed by U. C. White of Jacksonville, Burch's president, and J. Windell Raney of Little Rock, its secretary.

House Call for Economy Rejected

WASHINGTON (AP) — The Senate has spurned a House demand for presidential budget slashing and rejected three Republican economy moves.

The series of Senate votes Wednesday set the stage for another round in the congressional budget battle, with a Senate-House conference committee the stage and financing for several federal agencies at stake.

Senate leaders said meanwhile it's possible five additional appropriations measures for the fiscal year that started July 1 will be sent to President Johnson by this afternoon.

That would mean final congressional action has been taken on 11 of the 15 money bills needed to run the government.

But programs covered under the four other bills—including antipoverty and foreign aid—have slim prospects of getting their funds for several weeks as a result of the Senate's action Wednesday.

That's because in passing 59 to 26 a temporary spending resolution to cover these agencies, the Senate turned down House riders directing President Johnson to slash spending, making early House acceptance of the measure unlikely. The disagreement goes to a conference committee.

Also turned back were these Republican bids to cut spending:

—Sen. John J. Williams, Delaware, a \$5 billion spending cut, defeated 48 to 39.

—Sen. Karl E. Mundt, South Dakota, a \$2 billion reduction in most nondefense appropriations, defeated 46 to 43.

—Sen. Everett M. Dirksen, Illinois, expressing the intent of Congress to make a \$5 billion spending cut later if Johnson doesn't, defeated 45 to 39.

The five money bills which may be cleared to Johnson late today are a \$2.17 billion measure to finance the State, Commerce and Justice departments; a \$4.7 billion public works measure; a \$10.2 billion bill covering the Housing and Urban Development Department and numerous independent agencies; \$4.6 billion for the National Aeronautics and Space Agency, and \$10.1 billion to finance the Health, Education and Welfare and Labor departments.

The House cleared the compromise State - Commerce-Justice and the public works bills Wednesday. The Senate has scheduled debate on them this afternoon. The House plans to act on the other three today and the Senate may do likewise if it gets them in time.

Ashdown's Paper Mill Picketed

ASHDOWN, Ark. (AP)—Donald Henderson of Little Rock, secretary of the state Building and Construction Trades Council, said Wednesday that three unions had been picketing the construction site of Nekoosa-Edward's \$47 million paper mill near here since Monday.

He said the unions involved in the strike were Local 706 of the Plumbers and Pipefitters of El Dorado, Local 788 of the Construction laborers of Camden and Local 249 of the Sheet-metal Workers of Little Rock.

He said Brown and Root Construction Co., of Houston, Tex., was using non-union workers to build the paper finishing complex.

"They (Brown and Root) are not paying the prevailing wage rate for this area, and they are not paying the fringe benefits for this area," Henderson said.

He said about 600 persons were employed in the construction.

Filibuster Looms for Civil Rights

WASHINGTON (AP) — The threat of a filibuster now hangs over a civil rights bill the administration jammed through the Senate Judiciary Committee Wednesday.

The measure provides stiff criminal penalties for using force or threats to interfere with the right of Negroes to vote, attend public schools, serve on juries, use public accommodations or engage in other specifically enumerated activities.

Republican Leader Everett M. Dirksen said in an interview that if the bill is brought up for Senate action "there will be a filibuster against it."

"You can be sure of that," he said, adding "it won't be my doing."

Dirksen said getting the Senate involved in legislation so controversial would complicate efforts to adjourn.

Democratic Leader Mike Mansfield said in a separate interview he anticipates the civil rights bill will be brought up for Senate action this year.

Mansfield said before making a definite scheduling decision he will look into the possibility of a filibuster. Southern senators often have filibustered against civil rights bills. Shutting them off requires approval of two-thirds of the senators voting.

Dirksen, a Judiciary Committee member, supported Sen. Sam J. Ervin Jr.'s proposed substitute for the administration's civil rights bill, which would provide protection for all citizens against the use of force or intimidation to interfere with their exercise of federally guaranteed rights.

Ervin said he opposed the government's providing protection only to those whose rights are interfered with because of race, color, religion or national origin.

Mystery Car Given 31 Tickets

NEW YORK (AP) — Gabriele Birnbaum, where are you? More important, who are you?

The police would like to know why you left your station wagon parked on East 25th Street for a month.

And residents of East 25th Street want to know from police why the car collected 31 summonses from meter maids and was never towed away — while other cars are towed away 10 minutes after they are illegally parked.

Gabriele Birnbaum's station wagon came to public attention after residents took the 31 summonses, tucked in every cranny by a succession of meter maids, and taped them across the front of the car.

Police headquarters explained that towaway squads don't usually infringe on parking meter territory. The Traffic Department said it was odd, because meter maids were supposed to report to police after writing three or four summonses on the same car.

And police at the East 21st Street station said they didn't know about the car and would look into it immediately.

When they did, they found that Gabriele Birnbaum listed her address as Narrowsburg in upstate New York, but so far no one can be located there who ever heard of her.

And in Pennsylvania, where the car is registered, authorities said it was registered to a post office box number and that's all they know.

Denies WR Protested Low Taxes

MORRILTON, Ark. (AP) — Conway County Tax Assessor W. O. "Bus" Hice disputed Wednesday Gov. Winthrop Rockefeller's claim that he had complained to Hice that his Winrock Farms property was underassessed.

"He has never been in my office in his life to talk about assessments," Hice declared.

He said Winrock Farms Comptroller Floyd Trafford had been in his office to assess Winrock property, "but never Rockefeller himself."

Barton Brothers Outstanding Hope Star Carriers — Phillip, left and Steve Barton right will be given a well deserved trip to the Louisiana State Fair. These boys have been with the Hope Star a combined period of 5 1/2 years and have never failed to pay their bills by the weekly deadline.

Johnson in Trouble on War Conduct

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — President Johnson at this moment is like a man in a full-dress suit who suddenly walked under a cold shower. But that doesn't mean he is going to drown.

Although attired in all the trappings and power of the presidency, Johnson is being drenched in a flood of criticism and dissent about the war in Vietnam and his handling of it.

He did not pay much attention to the criticism a couple of years ago when it was just getting under way. He considered his critics in those days a very small percentage of the population. The picture has changed dramatically.

The most recent Gallup public opinion poll reports that 46 per cent of the people questioned look upon American involvement in the war as a mistake. A similar poll in August 1965 showed only 24 per cent felt that way.

In this latest poll only 44 per cent said they did not think it was a mistake to send troops into Vietnam. Ten per cent had no opinion.

If the disillusionment continues to climb—and the war isn't ended—by the time the 1968 election year begins, Johnson's chances for re-election or even for renomination may seem dim, indeed. But that's only maybe.

In the first place, by the time the Democrats and Republicans pick their presidential candidates next summer, there may have been a big change in the war, favorable to the United States. That would be a big boon for Johnson.

And it will be another break for him—even if the war is still going on next summer—if most of the Republicans now considered their party's most likely candidates keep on with the songs they are singing now.

They're split on what to do about the war.

Former Vice President Richard M. Nixon and California Gov. Ronald Reagan want to make it far tougher. Michigan Gov. George Romney and Illinois Sen. Charles H. Percy are all for a softer, slowed-down war.

If any one of those four gets the nomination, and is saying then what he is saying now, his nomination will in turn split the war critics of both parties who are fed up with Johnson.

Since they are also divided into hawks and doves, the nomination of Romney or Percy would hardly be the ideal for the hawks. The same goes for the doves if Nixon or Reagan got the nomination.

Meanwhile two men—Johnson and New York's Gov. Nelson A. Rockefeller—are following a middle course. Rockefeller is the fifth top Republican being mentioned for his party's nomination, although he says he wants no part of it.

Johnson has avoided the extreme of all-out war against North Vietnam, just as he has refused to soften the war. And Rockefeller is the only one of those top five Republicans who has no criticism of what Johnson is doing.

All he has said so far is that he thinks Johnson is doing the best he can. If Rockefeller changes his mind about not wanting the nomination, it won't be the first time. He bowed out of the 1960 race and then said he'd accept a draft.

If he has anything in mind like that now, he is playing a shrewd game. He has plenty of time before the 1968 nominating convention to see how the political winds on the war are blowing.

If then he decides to make a try publicly, he can take any position he wants without suffering the embarrassment that would engulf Nixon, Reagan, Romney or Percy if any of them tries to shift gears on the war.

There is dissension among the Democrats on the war and some of them already say they don't want Johnson in 1968. But they are under a handicap there.

It would be a great confession of error by the Democratic party in having picked Johnson at any time if it should refuse to renominate him in 1968. The party will have to do a lot of soul-searching before it tries that.

But, assuming Democrats make Johnson their choice again next year, the party critics who feel they can't vote for him will be in a dilemma, depending on whether they are doves or hawks, about which Republican to vote for, a dove or a hawk.

Missile Crew Gets Third Man

WASHINGTON (AP) — A fatigue factor has prompted the Air Force to add a third crewman to launch sites for the nation's latest land-based nuclear missile, sources report.

The Minuteman II, the Air Force found, requires three men to alternate at resting and carrying on the hour-by-hour checkouts of the missile's readiness, and other activities.

The Air Force, in response to questions, officially attributed the need for the additional officer to the greater sophistication of the 6,300-mile range intercontinental ballistic missile.

War Critics Avoid New Power Group

By ROBERT GRAY
Associated Press Writer

WASHINGTON (AP) — Senate critics of U.S. policies in Vietnam show no inclination to tangle with a newly formed, blue ribbon committee supporting those policies.

The organization includes former Presidents Dwight D. Eisenhower and Harry S. Truman and other prominent names in both parties.

Senators opposing the administration on Vietnam said variously they weren't the type of dissenters the committee was aiming at, that they share its concern for U.S. fighting men in Vietnam or that they did not want to discuss publicly the new organization's goals.

Formation of the Citizens Committee for Peace with Freedom in Vietnam was announced Wednesday at a news conference by five-star Gen. Omar N. Bradley and former Democratic Sen. Paul H. Douglas of Illinois.

A policy declaration of the new committee said: "We strongly support our commitment in Vietnam and the policy of noncompromising, although limited, resistance to aggression."

The organization set its objective as making sure "Peking and Hanoi will not mistake the strident voices of some dissenters for American discouragement."

Sen. Thruston B. Morton, R-Ky., who was a GOP national chairman under Eisenhower and opposes President Johnson's war policies, said the committee was referring to recent antiwar demonstrations marked by violence and he also condemned such activities.

Other war critics said that despite their disagreements on policy, nearly all the Vietnam dissenters had voted continually to assure full support to men in the field.

Sen. George Aiken, R-Vt., who has called for a change in the White House as the only way to bring about negotiations, said he did not consider that his was one of the strident voices of dissent the committee criticized.

Announcement of the committee's formation coincided with a new Gallup Poll indicating the number of Americans disillusioned with the war has about doubled since 1965.

The poll of 1,585 persons showed 46 per cent now consider U.S. involvement in Vietnam a mistake compared to 24 per cent who held that view in a 1965 sampling.

Those polled were asked: "In view of the developments since we entered the fighting in Vietnam, do you think the United States made a mistake sending troops to fight in Vietnam?"

Sen. Long Cleared by Ethics Body

WASHINGTON (AP) — The Senate ethics committee says it finds no facts to support misconduct accusations against Sen. Edward V. Long, D-Mo.

The panel now plans to push forward with its efforts to develop a code of standards and conduct for senators and Senate employees.

The bipartisan committee's work on a code has twice been interrupted, first by its investigation into misconduct charges against Sen. Thomas J. Dodd, D-Conn., and then by its inquiry into the affairs of Long.

Chairman John Stennis, D-Miss., said despite the delays the committee may submit a code for Senate action before Congress adjourns this year.

The committee's report Wednesday to the Senate on its closed inquiry into Life magazine allegations against Long said it found no basis for conducting public hearings.

Long said he regarded the ethic panel's unanimous report as a complete vindication. He told the Senate his honor and integrity had been questioned for the first time in his career and the report had lifted a great burden.

The May 26 Life article said that in 1963 and 1964 Long had received \$48,000 in legal fees from Morris A. Shenker, a St. Louis attorney for imprisoned Teamsters Union President James R. Hoffa. The magazine suggested Long misused a Senate probe of wiretapping—which he headed—in an effort to keep Hoffa out of jail.

Hoffa has based attempts to overturn his conviction for jury tampering for the most part on grounds evidence against him was gained through illegal wiretapping.

Glazed Half Ham for Small Family

Your family may be small, even if your spirit of Thanksgiving is large. In that case, a sweet honey and orange glazed half ham may be just about what you would like for the gala but mini-feast.

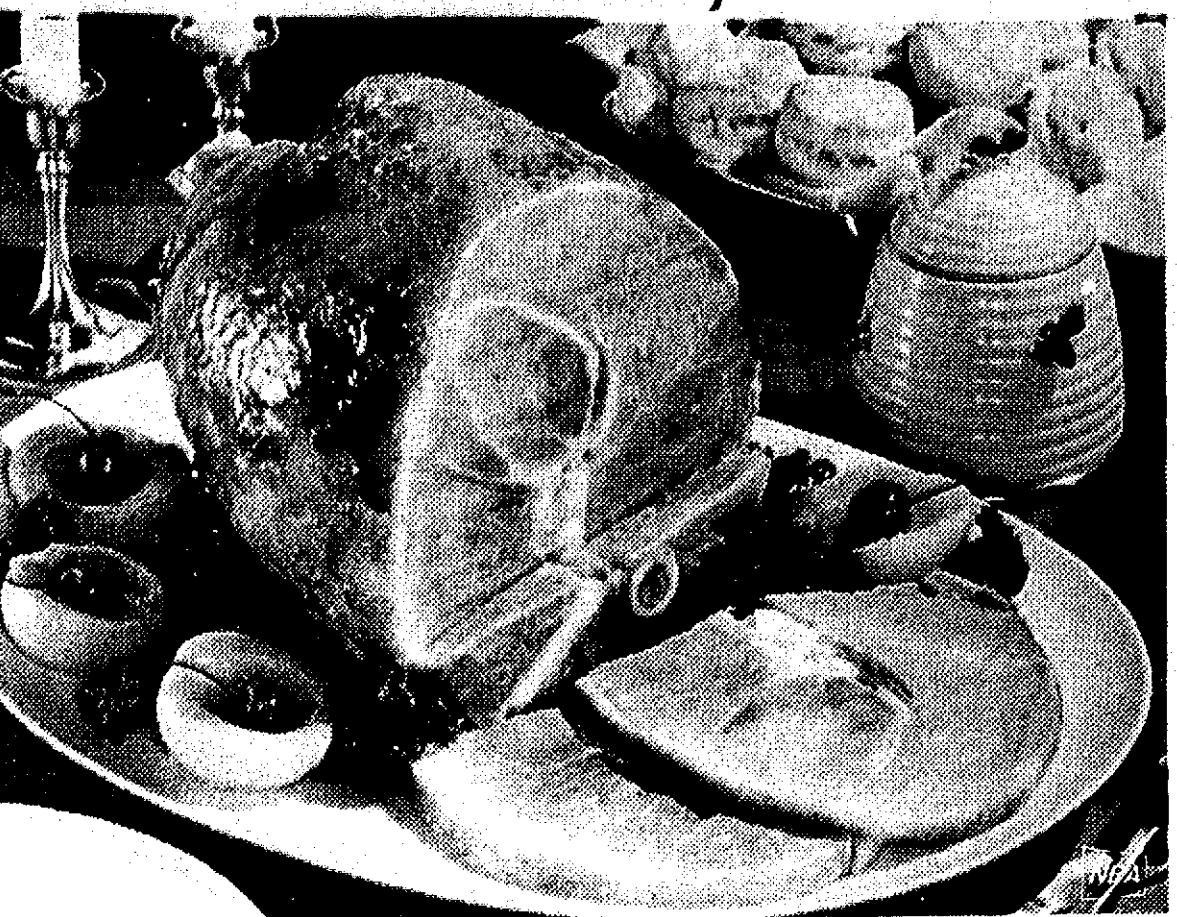

BAKED HAM
HONEY-ORANGE GLAZE
5- to 7-pound shank half smoked ham
Honey-Orange Glaze
Place ham, fat side up, on rack in open roasting pan. Insert meat thermometer so the bulb reaches the center of the thickest part. Be careful that the bulb does not rest in fat or on bone. Do not add water. Do not cover. Roast in a slow oven (325 degrees) until the meat thermometer registers 160 degrees. Allow 18 to 20 minutes per pound for roasting. During the last 20 to 30 minutes of roasting time spread Honey-Orange Glaze over meat and return to oven to finish roasting.

Honey-Orange Glaze
1/2 cup honey
1/2 cup brown sugar
1/4 cup orange juice
Combine all ingredients, mixing thoroughly.

Wants to Start Alligator Farm

ALBANY, Ga. (AP) — A south Georgia man wants to start the state's first commercial farm for spawning alligators, but officials say he can only raise quail.

Henry Ustry of Albany said in his application for a permit that he wanted to acquire 130 female and 30 male alligators. He also wanted a few alligator contributions from the state just to get him started.

Time for Cranberry Halloween Cake

By GAYNOR MADDOX
NEA Food Editor

Halloween is fun time. And, of course, as everyone knows, witches and black cats have the most fun.

But there's fun for everyone in a special Halloween cake with cranberry filling and pumpkin yellow frosting. Witches and cats decorate the top.

HALLOWEEN CAKE with oomph!

CRANBERRY HALLOWEEN CAKE
(Makes 1 9-inch cake)
1 large package yellow or white cake mix
Grated rind of 1 orange
2 cups fresh cranberries, rinsed and drained
1/2 cup orange juice
1/2 cup granulated sugar
1 package (14 ounces) creamy white frosting mix
Red and yellow food coloring
Cat, pumpkin, witch and haunted house cut-outs

Prepare cake mix according to package directions but adding grated orange rind to batter. Bake in 2 greased and floured 9-inch cake layers as directed. While cake is baking, combine cranberries, orange juice and sugar. Boil for 10 minutes, cool and then chill. Cool cake layers on a rack 10 minutes then remove from pans and finish cooling. Spread cranberry filling between layers. Prepare frosting mix according to package

directions adding enough red and yellow food coloring to make frosting a bright orange. Spread frosting on the sides and top of cake. Push cut-outs into the frosting on the cake in the desired pattern.

Give Classic Flavor to Beef With Onion Soup

What's traditional for pot-roast? Onion certainly is, just as are potatoes and carrots.

It's easy to give a blade shoulder cut of beef the classic seasoning when onion soup is used as the braising liquid, explains meat authority, Reba Stagg.

Adding a bay leaf is also traditional among many cooks. Like onion, the bay leaf contributes about a much pleasing aroma, thus enhancing the savoriness of the pot-roast.

With the liquids from pot-roast, do make gravy. Cook potatoes with the pot-roast or prepare whipped potatoes which do so well with this gravy for a hearty dinner.

Traditional Pot-Roast
4 to 5 pound beef blade pot-roast
1 cup flour
2 teaspoons salt
1 teaspoon pepper
1/2 cup butter or oil
1 can (10 1/2 ounces) condensed onion soup
1 bay leaf
6 medium carrots
Combine flour, salt and pepper. Dredge meat in seasoned flour. Brown meat in fat or drippings. Pour off drippings. Add onion soup and bay leaf. Cover tightly and simmer for 2 1/2 hours. Add carrots, cover tightly and continue simmering 30 to 40 minutes or until meat is tender and carrots are done. Remove meat and carrots and lay leaf and thicken gravy with remaining flour for gravy, if desired.

Thief Has Key to Meters

MEMPHIS (AP) — Traffic police in Memphis say some thief has a key to 2,200 of the city's parking meters and it is costing the city a pretty penny, estimated at \$3,000 to date.

Traffic engineer Robert A. Fossnaugh says from 60 to 150 meters are being tapped each weekend. He termed it "the longest seige of meter robberies I can remember."

The thief hits meters in outlying areas of the city to avoid detection.

Time Goes by It's Not 1st Cost But the Upkeep

I'm not the first to remark that Time goes by with increasing speed as you grow older. Yesterday I met Frank Drake on the street. Son of T. J. Drake of Palmos, he was back home on a periodic visit, and I inquired again about his status in Chicago where he has made a great success.

Frank is president of the Chicago Tire & Rubber Division of the B. F. Goodrich Tire Co., with an office staff of more than 50 persons.

Time does go by. Just the other day, it seems, Frank and Buck Powers were running the Diamond cafe here. Now Frank has a top industrial post in Chicago, and Buck owns an exceptionally good restaurant in Beebe, Ark.

Frank is returning to Chicago Friday.

One of this week's news dispatches quotes some wise-guy as saying that the more money you make the higher your living costs go. He really meant it, and for once what a wise-guy says is true.

Here's the application:

You get to feeling flush, and you buy a boat. The boat alone won't break you; but you keep adding things to it—and if there's a yacht club anywhere around you look it up, and join. First thing you know, that initial step toward a new way of life has stretched out to a very long mile, dollar-wise.

Nor does it particularly help boating. The adage still stands: The first year you're busy putting things on a boat—and all the rest of the years you are busy throwing away what you put on.

2 Hurt in Auto Crash at Airport

A head-on collision occurred this morning at 7:35 at the Hope Airport entrance on Highway 4 when, according to police, a pickup driven by Headlee Caldwell of Benton traveling north attempted to turn right on Hwy. 32. The truck's brakes apparently locked causing the truck to cross the highway to the left into the path of a car driven by Ernest Gene Greenlee who was traveling south.

Greenlee suffered a broken leg and lacerations and was brought to a local hospital by an ambulance. Caldwell received skin abrasions and was charged with driving left of the center line. State trooper Wallace Martin investigated.

Revenue Dept. Loses Use of Fees

LITTLE ROCK (AP) — Fees collected by the state Revenue Department for furnishing abstracts of a driver's records can't be used by the Revenue Department, the attorney general's office said Wednesday.

State Revenue Commissioner B. Bryan Larey said in asking for the ruling that the legislature intended for the department to keep the fees to pay for operating the Driver's Licensing Bureau created in 1965.

Assistant Atty. Gen. Ralph G. Brodie said he interpreted the revenue stabilization act to mean the funds went into the Constitutional and Fiscal Agencies Fund.

State Teachers Lead in Economics

LITTLE ROCK (AP) — Arkansas teachers led the nation in this year's Kazanjan Awards competition in economic education, Dr. Bessie B. Moore, executive director of the Arkansas State Council on Economic Education, said Wednesday.

She said Dr. George I. Ferish, associate director of the Joint Council on Economic Education at New York, had notified her that Arkansas entries won 16 of the 53 awards given by the Kazanjan Foundation.

The foundation was established by the late Calvin K. Kazanjan.

Fantastic Waste in Job Corps

WASHINGTON (AP) — A government report circulating on Capitol Hill under a "confidential" label presents a picture of high cost, waste and disciplinary problems at a Job Corps center in California.

The Office of Economic Opportunity says the paper is not secret at all—that the agency itself had made it available to members of Congress—and that conditions have been corrected.

On the other hand the copy made available to a reporter carries a memorandum from the General Accounting Office which says the GAO had submitted the findings to the anti-poverty agency, had received no response, and felt Congress should be informed for its guidance on legislation.

The report says that after two years of operation, the estimated cost of the California center had jumped from \$12.8 million to \$25.5 million, the drop-out rate was 55 per cent and only 8 per cent of the enrollees were placed in jobs related to their training.

It also relates that within a 60-day period, dismissal was recommended for 93 enrollees on disciplinary grounds ranging from assault, robbery and extortion to use of marijuana and sex perversion.

A spokesman for the Office of Economic Opportunity said the report was completed almost a year ago and was based on 1965-66 operations. He added that since 1966 operations have been tightened up at all such centers.

The report also discloses that within a 60-day period, dismissal was recommended for 93 enrollees on disciplinary grounds ranging from assault, robbery and extortion to use of marijuana and sex perversion.

The report is a preliminary study of the Parks Job Corps Center at Pleasanton, Calif., by the General Accounting Office.

It was released on a "strictly confidential" basis to members of Congress to help them draft anti-poverty legislation.

The Senate has already passed a bill extending the anti-poverty program for two years and the House is due to act on a similar measure soon.

The GAO said it also sent a copy of the report last March to the Office of Economic Opportunity, which directs the anti-poverty program, asking for its comments. It said it received no

Boyle's Face Makes Him Apologize for Being Only Himself

By HAL BOYLE
NEW YORK (AP) — One of life's little ordeals is to have an unforgettable face.

It is particularly a nuisance if your unforgettable face is continually being remembered by people who never saw it before.

This has been my doom for some years now. I am continually being mistaken for someone else and having to apologize lamely for not being that someone else.

I am left with a vague feeling of guilt because I'm me.

Why I should remind so many people of somebody else is something I have never been able to figure out. I have a time-beaten visage of established vintage and a shape like a contented hourglass. Perhaps the explanation is that, if you've seen one middle-aged fat man with a receding hairline, you've seen them all—or think you have.

One of the things about being mistaken for someone else that disturbs my vanity is the kind of character I am mistaken for.

No one says to me, "Oh, sorry, I thought you were Rock Hudson."

Or, "Well, Nelson, if you change your mind and decide to try for the White House, you can count on my vote."

Oh, no. Not me. They don't even mistake me for the prisoner of Zenda, or the guy in the Iron mask. I am not even mistaken for any of the "10 most-wanted men" whose fugitive

Pomp and Ceremony Mark Coronation of the Shah of Iran

By DAVID LANCASHIRE
Associated Press Writer

TEHRAN, Iran (AP) — Guns and drums boomed and planes bombed Tehran with roses today as the Shah of Iran set a jeweled crown on his head and named himself King of Kings and Light of the Aryans.

It was the longest delayed coronation in history. Mohammed Reza Pahlavi had ruled for 26 years but delayed his coronation until his 48th birthday, after his campaign to modernize Iran was firmly established and after he had an heir.

Allowance for Kids Is Newest Plan

NEW YORK (AP) — Does a program to give every child in the United States a cash allowance—say \$10 or \$25 a month—sound like pie in the sky?

About 50 experts in business, economics, labor, civil rights, government and social policy argued the matter for three days and agreed that it would be a pretty good thing for the federal government to start planning along those lines.

Not even the most ardent advocate, though, thought the program was just around the corner.

The consensus of the conference members, who met Oct. 22-24 at Warrenton, Va., was that the cash grants would be especially effective as part of an over-all package that included health, education and housing programs. The members disagreed on some particulars, such as financing.

The conference, sponsored by the Citizens' Committee for Children of New York under a special Ford Foundation grant, was attended by officials from three of the 62 countries that have some system of children's allowances.

At a New York meeting Wednesday to report on the conference, Prof. Evelyn Burns said that in view of the 15 million poor children in this country it was ironic that the United States is the only industrial nation in the world that doesn't have some form of family or children's allowances.

Dr. Burns, conference chairman and professor of social work at Columbia University, would like the cash payments made regardless of family income. "Even Bobby Kennedy's children would get it," she said.

features are tacked up in the local post office.

I am generally mistaken for the man who sold them a used car in Dubuque, the guy who hasn't been doing so well in real estate in Arizona, or that funny-looking fellow—what WAS his name?—who once sat behind them in study hall in high school in Omaha.

It is bad enough to be mistaken for someone else by men I've never encountered before. What is worse is how I am constantly being mistaken by strange women.

They are never gloriously young and blonde and desiring. They are invariably near-sighted, demanding, testy, tempered, and showing definite hallmarks of being older than they used to be.

They say things like: "Well, I've been waiting here for hours for you to show up. Where in heaven's name have you been?"

"Here, you hold the baby—I'm tired."

And then they exclaim, "Oh, I thought you were my husband!" and glare at me in mute but furious accusation.

Now and then I get a puzzled feeling myself that I am someone I have met before.

Sometimes, when shaving in the morning, I look in the mirror and say to myself, "Excuse me, the fuzz is familiar, but aren't you the boy I used to know—or are you his father?"

1st Vietnam Mistake Our French Aid

— Fulbright

LITTLE ROCK (AP) — The United States can find a way out of the Vietnam War if her people will only make up their own minds to get out and convince their leaders "that they want to compromise this, and to get out, and to disengage and to not keep this as a permanent base," Sen. J. William Fulbright declared Wednesday.

"This is a decision that has to be made before you're really bothered about procedure," Fulbright told a Little Rock civic club. "I have no doubt that if we really could conclude that it is not in our interest to pursue this war, or to establish a permanent colony there, then I'm sure ways could be found to get out."

The junior senator reiterated statements that the war was wasting manpower and money and said he thought a citizen had the right to dissent or disagree with his government.

"I think an officer holder, or a representative or senator has more than a right," he said. "He has a duty if his own mind or conscience leads him to believe that his own government is following a policy that is against the interest of his people, his state, his nation."

Fulbright said he thought the United States made its first mistake in Vietnam by helping the French keep control of the country. In Vietnam, the United States altered for the first time its policy of siding with a colony instead of the colonizer, he said.

Reza Shah's son came to power in 1941 when British and Russian troops occupied the country and deposed the father for allegedly being pro-German. But the son refused to be crowned for more than two decades because "there is no pride in being the king of a poor people" and also because his first two wives failed to give him an heir.

Today the 6-year-old son of the Shah and Empress Farah stood at their side, Crown Prince Reza. And throughout the country were new signs of wealth from the royal revolution which has ended Iran's feudal system of landholding.

Loans Made to Local Farm Poor

Many Hempstead County low-income rural people have increased buying power, as a result of federal opportunity loans, according to Jeff High, the Farmers Home Administration local representative.

High, who has been Farmers Home Administration's Hempstead County supervisor for over five years, said some 29 farm and other rural families have received over \$42,790 in economic opportunity loans.

They used the loans, High said, to develop small businesses and improve their farming operations.

"These families now have cash in their pockets when they go into town to shop," High said. The opportunity loans are part of the federal anti-poverty program, which Congress enacted three years ago. The loan program is administered by the Farmers Home Administration for the office of Economic Opportunity.

Low-income rural people, through the local Farmers Home Administration Office, may receive loans up to \$3,500 to develop income-producing businesses or to enlarge farming operations. Borrowers may take up to 15 years to repay the loan.

For the first time, according to High, people who could never before qualify for loans now can get the money they need to develop or expand a business enterprise or a farming operation.

"But in all cases," High added, "the enterprise—whether its farming or business—must have a reasonable chance of success."

Applications for loans are made through the Farmers Home Administration Hempstead County Office in Hope, Arkansas.

Navy Cleans Up on Mig Fighters

By ROBERT TUCKMAN
Associated Press Writer

SAIGON (AP) — U.S. Navy fliers reported they shot down a MIG21 just south of Hanoi today and destroyed or damaged 10 other MIGs on the ground during strikes Wednesday on the Phuc Yen airbase 18 miles northwest of the Communist capital.

The raids on Phuc Yen and on Hanoi's mile-long Paul Doumer Bridge cost three American fighter-bombers, the U.S. Command announced. All three pilots are missing.

The stepped-up air war in the North again overshadowed ground fighting in the South, but South Korean infantrymen and South Vietnamese militiamen reported they had 300 to 350 enemy soldiers trapped in three pockets near the South China Sea coast 200 miles northeast of Saigon.

Incomplete reports said 33 of the enemy had been killed so far, while Korean and Vietnamese casualties were light.

The U.S. Command announced that American casualties in the ground war rose slightly last week and were more than double the South Vietnamese casualties. U.S. forces reported 193 killed, 949 wounded and seven missing, while the South Vietnamese said theirs were 81 killed, 355 wounded and two missing. It was the second week in succession that American casualties exceeded those of the South Vietnamese.

U.S. officials said 1,227 enemy were killed last week, compared with 1,562 in the previous week.

In the intensified U.S. air drive against North Vietnam, American fighter-bombers flew 125 missions Wednesday and attacked the previously hit Hoa Lac airfield in addition to the raids on PKHUC Yen and the Doumer bridge. Pilots reported damaging one MIG on the ground at Hoa Lac, 20 miles west of Hanoi.

With nine MIGs reported destroyed or damaged on the ground during the first raid on Phuc Yen Tuesday, another shot down in a dogfight that day and another probable kill claimed, a total of 23 Communist jet interceptors have been reported put out of action this week.

The U.S. Command has announced the loss of seven American planes Tuesday and Wednesday, raising to 714 the number of U.S. combat planes officially reported down over North Vietnam.

There was no announcement of U.S. losses today, but North

Motorcyclist Is Killed at Warren

WARREN, Ark. (AP) — Jimmie Charles Craig, 16, of Warren, was thrown from his motorcycle and killed here Wednesday.

Authorities said Craig, son of Mr. and Mrs. Leroy Craig, apparently lost control of the motorcycle and ran into a curb.

Mena Man Gets 'Life' for Murder

MENA, Ark. (AP) — Darrell Wilhite, 23, of Mena was convicted and sentenced to life in prison Wednesday for the July 9 slaying of his wife on the Polk County Courthouse lawn a day before they were to be divorced.

A Polk County Circuit Court jury deliberated only briefly before returning its verdict and fixing Wilhite's punishment.

Wilhite pleaded guilty to first-degree murder and the state had waived the death penalty, but a jury trial was still required. Circuit Judge Bobby Steel of Nashville pronounced formal sentence.

Mrs. Wilhite, 19, was shot with a 20-gauge shotgun as she walked between State Trooper Ken Hendricks and City Patrolman Floyd Phillips. They were leaving the courthouse to arrest Wilhite for violating a Chancery Court order restraining him from bothering her.

Prosecutor Joe Hardegree called four persons who witnessed the shooting Wilhite waited in the shadows of the courthouse until his wife and the officers emerged and then fired as they walked away from him.

Cline and Asst. State Atty. John Treble III searched the Richardsons' section of the two-story, two-family home Wednesday night, and then locked it pending further investigation.

Several kitchen utensils were sent to a Saratoga laboratory for examination, Cline said, but no trace of the insecticides was found. The Richardsons planned to move in with neighbors.

The poisonings were reported first by school officials when two of the older children became violently ill after reporting to class after the noon recess.

Victim of Annesia Home Safe

PARSIPPANY, N.J. (AP) — "This is unbelievable. It's like returning from the dead," said 19-year-old Bruce Burkan.

Bruce—missing and presumed dead for two months—walked into his home and told his mother that he had no idea of what happened or where he had been.

"He looked very confused and had several cuts on his face," said Mrs. Theodore Burkan, who was Mrs. New Jersey of 1966.

Her son had been missing since Aug. 22, when he left his fiancée, Valerie Schmetzer, 19, on an Asbury Park beach to put a coin in a parking meter.

Bruce said Wednesday he remembers being in Asbury Park and leaving the beach. The next thing he remembers, he said, was being in a bus terminal Tuesday in Newark.

Mrs. Burkan said she was upstairs on the phone Tuesday when Bruce walked in. She stood in complete shock for a few minutes and then "flew" down to him.

She said similar scenes took place as his three brothers, Barry, 13, Lee, 9, and Wayne, 15, came home from school.

Mrs. Burkan showed Bruce a remembrance book she kept, showing pictures and stories of memorial services conducted for him. More than 200 area residents attended.

"I never dreamed so many people cared about me," the youth said.

"No one even knows how much he will be mourned at his funeral. I've had the golden opportunity of returning."

Spa Dentist Is Victim of Fire

HOT SPRINGS, Ark. (AP) — Dr. T. W. Kello, 93, a Hot Springs dentist, died here Wednesday night in a fire that destroyed his home and an adjacent barn.

The cause of the blaze was not determined.

ARCADIA, Fla. (AP) — Six children were killed Wednesday by poison that authorities said was traced to agricultural insecticides.

A seventh, 3-year-old Dianne Richardson, survived but was reported in critical condition in a hospital in Arcadia, a small agricultural community on the edge of the Florida Everglades.

Pathologist Millard White of Sarasota, who performed autopsies on the dead children, said, "They definitely died of parathion or malathion poisoning." The chemicals are used in the control of insects in agriculture.

Desoto County Sheriff Frank Cline said the parents, Mr. and Mrs. James Richardson, were working at a citrus packing plant when the children—ranging in age from 2 to 8—were stricken. Four of the children had been at school during the morning, but the young ones were left unattended when a baby sitter failed to show up, Cline said.

Cline said nothing had been found to indicate how the children received the poison.

"We don't know if they got down and rolled in it—or swallowed it. We just don't know what the means of intake was," he said.

Mrs. Richardson had prepared a lunch of beans, rice and grits Tuesday night, Cline said, and left it in the kitchen for the children. He said the lunch had been eaten.

Cline and Asst. State Atty. John Treble III searched the Richardsons' section of the two-story, two-family home Wednesday night, and then locked it pending further investigation.

Several kitchen utensils were sent to a Saratoga laboratory for examination, Cline said, but no trace of the insecticides was found. The Richardsons planned to move in with neighbors.

Bruce—missing and presumed dead for two months—walked into his home and told his mother that he had no idea of what happened or where he had been.

"He looked very confused and had several cuts on his face," said Mrs. Theodore Burkan, who was Mrs. New Jersey of 1966.

Her son had been missing since Aug. 22, when he left his fiancée, Valerie Schmetzer, 19, on an Asbury Park beach to put a coin in a parking meter.

Bruce said Wednesday he remembers being in Asbury Park and leaving the beach. The next thing he remembers, he said, was being in a bus terminal Tuesday in Newark.

Mrs. Burkan said she was upstairs on the phone Tuesday when Bruce walked in. She stood in complete shock for a few minutes and then "flew" down to him.

She said similar scenes took place as his three brothers, Barry, 13, Lee, 9, and Wayne, 15, came home from school.

Mrs. Burkan showed Bruce a remembrance book she kept, showing pictures and stories of memorial services conducted for him. More than 200 area residents attended.

"I never dreamed so many people cared about me," the youth said.

"No one even knows how much he will be mourned at his funeral. I've had the golden opportunity of returning."

Spa Dentist Is Victim of Fire

HOT SPRINGS, Ark. (AP) — Dr. T. W. Kello, 93, a Hot Springs dentist, died here Wednesday night in a fire that destroyed his home and an adjacent barn.

The cause of the blaze was not determined.

ARCADIA, Fla. (AP) — Six children were killed Wednesday by poison that authorities said was traced to agricultural insecticides.

A seventh, 3-year-old Dianne Richardson, survived but was reported in critical condition in a hospital in Arcadia, a small agricultural community on the edge of
